What current challenge do you believe web3 will solve?

1.

A current challenge web3 faces and needs to solve is user penetration especially in lesser developed countries. The potential for Web3 technologies especially in medical, social, and education is a challenge that needs to be proactively addressed.

What are you most excited to learn more about in The Graph ecosystem?

2.

I am most excited to learn more about the diversity in the decentralized environment. Learning new approaches in The Graph ecosystem is fascinating the more I delve into and learn more.

3.

How do you like to spend your time when you're not building web3?

Teaching, copywriting, editing, family time, and traveling.

What is a current challenge you think web3 will solve?

4.

It is very evident that the progression of web3 is changing our perception of our world and personal environment. The fundamentals of web3 are solid but evolving fluidly. Personally, it is vital to be on the forefront of this development and to assist others in better understanding the concepts and future.

5.

Which of your fellow Advocates would you like to shout out?

Paolo Diomedes & Cryptomas
