

# GRAPH ADVOCATES SPOTLIGHT

## Issue #24

Welcome back to the Graph Advocates Spotlight. Today's issue includes the first ever "Subgraph Spotlight", where we'll showcase the dApps & protocols that have migrated their subgraph(s) to The Graph's Decentralized Network. This week, we're highlighting **Premia!**

But first, let's take a quick look at this week's news in The Graph ecosystem.

## Community Roundup

- The Graph now has 335 Indexers supporting the network
- The Graph reaches #1 spot on Web3 Index
- Subgraph development progress thread from Messari
- Core Devs 2022 Recap Video
- Protofire's post-event report for their Web3 On-Chain Analytics Bootcamp
- GRTiQ Episode #98 - Best of 2022 Part Two
- One new Graph AdvocatesDAO community grants posted in the Forum

## Upcoming Graph Advocates Events

**Code Along w/**  
**Alex:** AssemblyScript  
**Date:** 1/6/2023  
**Time:** 8:00AM PST  
**Hosted By:** Alex

**Getting Started:** 30  
Days of Web3 - #2  
**Date:** 1/9/2022  
**Time:** 8am PST  
**Hosted By:** Alex

**Role Chats:**  
Technical Teacher  
**Date:** 1/2/2023  
**Time:** 8am PST  
**Hosted By:** Alex

# SUBGRAPH SPOTLIGHT

## 1. What is Premia and what problem is it solving?

"Premia is a decentralised platform for option traders and liquidity providers. In a nutshell, it is like a two-sided market place with LPs providing their crypto assets to liquidity pools & earning yield on one side and option traders buying and selling American style call and put options. More info is available in our docs <https://docs.premia.finance>."

## 2. How does Premia use The Graph?

"We use The Graph's services (both decentralized and hosted) to index, store, and provide data to our front-end application via GraphQL. It speeds up our front-end and enables complex analytics and data engineering on the protocol."

## 3. What motivated Premia to migrate it's subgraph to the Dentralized Network?

"Premia has always been a long-term supporter of full decentralization. We believe it is important to participate in the growth of decentralized networks like The Graph, to prove that decentralized models can work at scale and enable the internet to transition off centralized economic models."

## 4. How can folks interested in learning more get connected with Premia?

"Follow us on Twitter (@PremiaFinance) and Medium to stay up to date with all things Premia. Join our Discord to participate in the daily conversation regarding the protocol and its decentralized future."

# Data Depot: Epoch 736

Welcome back to Data Depot! Here we share the key weekly metrics of The Graph protocol. You can find additional network data on [The Graph Explorer](#).
