ADVOCATE SPOTLIGHT

- **Name:** Freddy Murillo Jr.
- **Advocate Role(s):** Web3 Welcomer
- **Region:** North America
- **Advocate Wave:** Wave 4
- **Social Media:** @Twenx_ (Twitter) Twenx#0582 (Discord) FreddyMJ3 (Telegram)
- **Background:** First and foremost I am a father & husband. I have 3 beautiful children and a beautiful wife that drive me crazy, but I wouldn't have it any other way. Most of my career has been spent in the telecommunications industry, until recently, where I was able to join teams like: Stellar Gate, Coinbase, and AnChain AI. And let me tell you, I AM HAVING SOOOOO MUCH FUN.

Why is web3 important to you?

1. Web3 is important to me because I feel like its resetting the playing field. It's giving people a chance who might have missed a different chance in life.

What is a challenge you believe web3 will solve?

2. Banking the Unbanked is the main problem I see it solving. I have family and friends who live in a country where its difficult to access financial services, or who dont want to trust financial institutions with their finances. This gives them the power to manage their own money on their own terms. I am excited to see what projects build for those users.

What other web3 communities are you interested or involved in?

3. The Blockchain communities that I am a part of have opened my eyes to what is needed in the world, and have given me a new perception on the world and whats possible. I want to open the eyes of others so that they gain that same feeling and understanding that I now see.

What other web3 communities are you interested or involved in?

4. I got my start as a Polygon Advocate, so I enjoy and participate in many Polygon projects and NFT communities like: Stellar Gate, Colony, Mad Meerkat Burrow, Crypto Unicorns (I play with my daughter) to name a few. I also am part of the Phantasma Chain Community, Binance Advocate Community, AnCHain.AI, Flow Community, Developer DAO, Cardano Kiwis and more. I like to think of myself as Chain Agnostic.

Data Depot: Epoch 744

Welcome back to Data Depot! Here we share the key weekly metrics of The Graph protocol. You can find additional network data on [The Graph Explorer](#).
