# Advocate Spotlight

- **Name:** Silka
- **Advocate Role(s):** Text Translator
- **Region:** North America
- **Advocate Wave:** Wave 1
- **Social Media Handles:** Silka#5676 (Discord), @silkarg (Twitter)
- **Background:** Currently, I'm learning as much as I can about the ecosystem in order to give back to the web3 community and contribute to decentralization. I am hoping to work full time in Web3.

## What would you like to accomplish as a Graph Advocate?

1. My job as an advocate is to translate. I am a native Spanish speaker and I'm glad I can contribute translating info for the community in Latam. I am fully aware that only a low percentage of the population speak English and by translating texts into Spanish, everyone can have access to them in their own language.

## What Graph Day Announcement did you find most compelling?

2. Geo Browser!

## Why is web3 important to you?

3. I believe web3 technology is important to me because it represents a bridge that connects people from all over the world to great opportunities. I think it's a revolution that is slowly going to change the world for the best.

## What are you most excited to learn more about in The Graph ecosystem?

4. Subgraphs! How to make and deploy them (I'm not technical)

## Which of your fellow Advocates would you like to shout out?

5. First of all, I'd like to thank Lorena. Her hard work in the Spanish Community led to great improvements in the ecosystem and because of it, I was able to hear about The Graph and The Graph Advocates Program. Second, I'd love to thank Estie. She was very sweet and helpful since day one. Lastly, I'd like to give Nick a shout out. I really loved his energy during the interview for the advocates role. He made feel welcome and supported in the ecosystem from the very beginning.
