

GRAPH ADVOCATES SPOTLIGHT

Issue #20

Welcome back to the Graph Advocates Spotlight! This week we are showcasing Advocate **Luke Pillarella**. But first, lets take a quick look at this week's news in The Graph ecosystem.

Community Roundup

- The Graph Announces Polygon as the 3rd network to be [migrated to the Decentralized Network](#)
- "[23 Ways to Participate in The Graph Ecosystem](#)" Blog Post By The Graph
- [GIP-0041 "A World of Data Services"](#) posted to the Graph Forum by [Jannis Pohlmann](#) and [Adam Fuller](#)
- Edge & Node supports \$2M [Web3 Working Group Nonprofit Fundraise](#)
- [\\$7k in Hacker Bounties Awarded By The Graph at ETHIndia](#)
- [DappLooker: 23% month-over-month growth in GRT queries](#)
- [Beta Version Release of Geo Genesis](#)
- [Indexer Office Hours #86](#)
- [GRTiQ Episode #93 with Collin O'brien](#)
- 2 new Graph AdvocatesDAO Community Grants [posted in the Forum](#)

Upcoming Graph Advocates Events

Learning Series: An Intro To Semiotic Labs

Date: 12/13/2022

Time: 8am PST

Hosted By: Nick

Community Grant: Application Presentation

Date: 12/13/2022

Time: 2am PST

Hosted By: Doxe

Twitter Spaces: The Graph Network Turns 2

Date: 12/15/2022

Time: 9am PST

Hosted By: Nick H

ADVOCATE SPOTLIGHT

- **Name:** Luke Pillarella
- **Advocate Role(s):** Content Creator, Web3 Welcomer
- **Region:** North America
- **Advocate Wave:** Wave 2
- **Social Media Handles:** @TheHiHedger (Twitter) / ljpill#4635 (Discord)
- **Background:** I am a passionate, life-long learner focused on applying my skills and knowledge in Business Intelligence & Analytics to deliver data driven solutions and ignite impactful change. I work as a Life Sciences - Technology Consultant focusing in data privacy and protection, third party risk management, internal audit, and IT audit consulting.

What is a current challenge you think web3 will solve?

As a Graph Advocate, my goal is to spread awareness and adoption of The Graph technology. I believe The Graph protocol to be a fundamental technology in the growth and adoption of Web3 technologies. With its ability to easily create queries and index the blockchain, it allows creators and developers to focus more on creating meaningful DApps than looking for the precise information they need.

1.

What inspired you to select the Advocates roles you have chosen?

Currently, I co-host a web series titled "Bridging the Gap to Web3" which is hosted by the world's largest startup community, Startup Grind. Therefore, I felt it appropriate to join the Graph Advocates as a Web3 Welcomer to continue on my mission to educate and learn together the possibilities of this new innovation and asset class.

2.

Which of your Advocate Contributions are you most proud of?

An infographic for The Graph that I shared with the Graph Advocates community.

3.

What are you most excited to learn more about in The Graph ecosystem?

I'm most excited to learn more about how to create subgraphs. My education background is in Information Systems and I have experience developing applications & managing databases. However, I haven't explored how to leverage my developer skills to bring value to a protocol within the Web3 ecosystem.

4.

Which of your fellow Advocates would you like to shout out?

5.

I would like to shout out Christina. Recently I created an infographic for The Graph (submitted above) and I shared it with the Graph Advocates community. Christina was quick to jump in and assist by adding comments/suggestions and helping me improve the overall look and feel of the document. It was a big hit on Twitter!!!

Data Depot: Epoch 706

Welcome back to Data Depot! Here we share the key weekly metrics of The Graph protocol. You can find additional network data on [The Graph Explorer](#).
