

Graph Advocates Spotlight

Issue #6

Welcome back to the Graph Advocates Spotlight! This week we are showcasing Advocates Paolo Diomede and Alexander.

But first, lets take a quick look at this week's updates in The Graph ecosystem.

Community Roundup

- The Graph launches the [Migration Infrastructure Providers \(MIP\) program](#) and [integrates Gnosis](#) as the first non-Ethereum chain on mainnet.
- [Nested Queries](#) launched by The Guild
- [Brian Berman w/ Edge & Node explains The Graph](#) at ETH Latam 2022
- [Indexer Office Hours #73](#)
- [GRTiQ Episode #75 with Zhen Cao](#)
- [Tenderize Staking & Unstaking Tutorial](#) by The Graphtronauts

AdvocatesDAO Working In Public

In the spirit of transparency and the web3 ethos, the Graph AdvocatesDAO has migrated many recurring DAO meetings into public channels on Discord, where everyone is invited to listen in and pose questions during the Q&A section of the agenda. Be sure to join a meeting if you are interested in learning about what the DAO is working on!

Congrats to Advocate Larik(#0034) for creating the "Working in Public" artwork and winning the [Call to Action posted in the Forum!](#)

Advocate Spotlight

- **Name:** Paolo Diomede
- **Advocate Role(s):** Community Care, Content Creator
- **Region:** Italy
- **Advocate Wave:** Initial Cohort (DAO Member)
- **Social Media Handles:** pdiomede#0101 (Discord), @pdiomede (Twitter), pdiomede (Telegram)
- **Background:** I graduated in Computer Science in Italy and I work currently for OpenText Corporation who is the largest Canadian software vendor. At OpenText I work as Principal Customer Advocate, handling relationships with our largest global account in EMEA in Customer Support.

What inspired you to select the Advocate role(s) you've chosen?

1. I chose Community Care because I love to help people and love to give back to the community. While the Content Creator, I chose because I love to teach and explain complex things with an easy to read language.

What are you most excited to learn more about in The Graph ecosystem?

2. Since technology is my first love, I plan to run my own Indexer when L2 will be live and the costs to run a node will be way more cheaper. So definitely I want to go deep into running my own indexer as for me it is very fascinating to read all the tech.

What is a current challenge you think web3 will solve?

3. A first challenge that web3 is already solving, it's about giving financial freedom to people that live in countries where it is extremely complex to get access to the banking/credit systems.

What other web3 communities or projects are you participating in?

4. Axie Infinity, because they have a passionate community of builders, even after the painful hack they experienced, they showed grit and resilience, and kept building.

Which of your fellow Advocates would you like to shout out? Why or how did they help you?

5. Chris Ewing: me and Chris, we share a long journey into web3, in Graphtronauts and now in the Advocates program. Chris has the ability to understand complex things and process them very fast, and at the same time he is able to summarize in a way that it is easy to digest. I also admire his integrity, he is someone you can trust 110%.

Paolo is a key contributor to The Graphtronauts community. Be sure to join their [Telegram](#) and check out their [blog posts](#)!

Advocate Spotlight

- **Name:** Alexander
- **Advocate Role(s):** Community Care, Content Creator, Event Evangelist, Text Translator
- **Region:** Europe
- **Advocate Wave:** Wave 2
- **Social Media Handles:** Instinckt | Let's Earn#2431 (Discord), @CryptolInstinckt (Twitter), doxe1 (GitHub),
- **Background:** Deep passion for web3 and decentralization. 2+ years in the crypto space with strong knowledge and use of DeFi dApps, L1/L2 blockchains and yield farming strategies. I thrive on daily ingestion of new developments in web3, including DeFi, community engagement and problem solving. Contributor, detail-oriented with a curious mind. What keeps me engaged is the fact that I learn something new every single day.

Why is web3 important to you?

1. I think this is the future that awaits us, convenience and ease of use, openness, decentralization.

What would you like to accomplish as a Graph Advocate?

2. To develop the Ukrainian community, both by creating materials and by translating existing documentation, but not only that.

What are you most excited to learn more about in The Graph ecosystem?

3. Overall, I'm thinking about community development and overall marketing skills.

What inspired you to select the Advocate role(s) you've chosen?

4. In general, I have heard a lot that the program of Advocates Graph, one of the most properly and interestingly organized, as well as the experience and knowledge.

How do you like to spend your time when you're not building web3?

5. First of all, I like to use sports and my health, to learn programming and other languages.

Alexander is a Connext Community Moderator, ClayStack Active Ambassador, and a UA Martian with BNB Chain

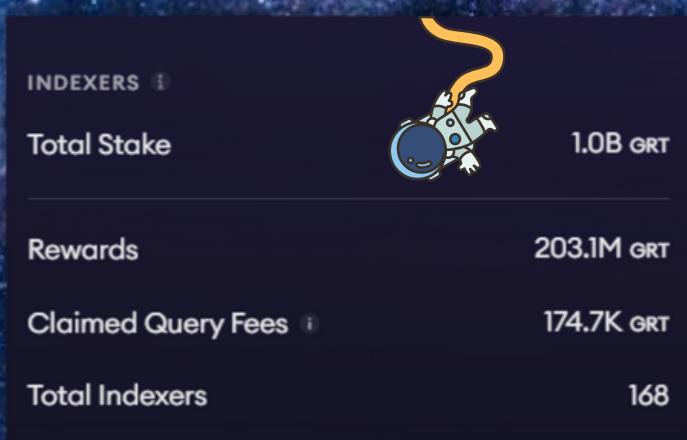

Data Depot: Epoch 596

Welcome back to Data Depot! Here we share the key weekly metrics of The Graph protocol. You can find additional network data on [The Graph Explorer](#).
